2-Year Tree
\$1.50 Each

Peach Trees

THE NEW RED HAVEN. Fruit is freestone and self-pollenizing. Flesh is fine, golden, sweet, juicy.

BELLE OF GEORGIA. Large white fruit with decided blush. A very heavy and regular bearer.

J. H. HALE. Flesh yellow and sweet. Excellent for canning and shipping.

GOLDEN JUBILEE. Fruit is large, bright apricot-orange in color with brilliant red cheek.

HALE HAVEN. A cross between the J. H. Hale, which is so large, and the South Haven, which is very fertile.

ELBERTA. The most popular of all peaches. A large oblong peach, yellow fruit with blush.

LATE ELBERTA. Big, yellow freestone, very productive and fine for canning and freezing.

PRICES ON PEACHES:

Apple Trees

SUMMER APPLES

Anoka. Large Dark Red, and of good flavor. The quickest known apple to come into bearing.

Yellow Transparent. The favorite yellow summer apple. Excellent for cooking and eating.

FALL APPLES

Red Jonathan. Rich, red, bears young, good for keeping in storage and shipping.

WINTER APPLES

Double Red Delicious. The New Superior Delicious, fruit extra large, bright red.

Yellow Delicious. A golden yellow apple of good flavor, a good keeper.

Grimes Golden. The Grimes is one of the higher quality yellow apples and of excellent flavor.

Stayman Winesap. Improved, dark, rich red, one of the outstanding apples for canning or cooking.

"The New Orient Pear"

Boyd's are proud to tell their customers about the new ORIENT Blight Free Pear introduced by Dr. Brooks D. Drain and associates at the University of Tennessee Experiment Station. There has been a great need for a good blight free pear for many years and this is the result of several years' work by the U.T. Experiment Station. The Orient is the most promising pear that has been introduced in the South for many years. It is a cross between the European and Asiatic Pear. Fruits uniformly and keeps excellent. Good for canning, preserving and eating. Foliage is dark green, very attractive and remains on the trees until late. It is a vigorous grower. We highly recommend this pear to our customers.

Grapes

Grape vines will produce more fruit and furnish more real pleasure than any known fruit, considering investment.

RED GRAPES

CATAWBA (Red)

Large, sweet and aromatic, good quality.

WHITE GRAPES

NIAGARA (White)

The leader of all in white grapes.

PRICES ON GRAPES

	Each	Per 10	Per 100
One-year	\$.30	\$2.50	\$20.00
Two-year	.40	3.50	30.00

BLACK GRAPES

CONCORD (Black)

Is considered one of the best grapes—the old favorite.

MOORES EARLY (Black)

Ripens early, good market berry.

Strawberries

Everbearing Strawberries

GEM

Hardy, disease resistant, and one of the biggest crop producers. Starts bearing 60 days after planting and continues until Fall, when planted in Spring.

PRICES EVERBEARING PLANTS

Per 25	Per 100	Per 500
\$1.50	\$4.00	\$15.00

Seasonal Strawberries

AROMA

Best late strawberry. It cannot be beaten for quantity or quality of fruit produced. Plants show no weakness of any kind.

BLAKEMORE

Beautiful bright red berry with firm flesh and wonderful flavor. Heavy foliage protects fruit from sun—berries remain on vine a considerable time after ripening. Bears a big crop.

STRAWBERRY PRICES

Per 25	Per 100	Per 500
\$1.15	\$3.10	\$9.70

Cherries SOUR CHERRIES

EARLY RICHMOND—It is the good dependable variety that yields such marvelous crops in the garden. The fruit is dark red, tender, juicy and of excellent quality.

MONTMORENCY—A large, light red cherry of the Richmond class. It is larger and more solid, about ten days late.

SWEET CHERRIES

BLACK TARTARIAN—A favorite sweet cherry, well adapted to almost any soil and climate. Lives to an old age, fruit medium size, brownish black, flesh purplish red, juicy, rich.

NAPOLEON—Very large, pale yellow, with bright red cheeks, very firm, juicy, and sweet, vigorous grower and productive.

Dwarf Bush Cherry

Will Bear Fruit Second Year After Planting

This is a good hardy, sweet cherry for the North and South and bears heavy annual crops of big, purplish red fruits of a wonderful, rich flavor.

Good to eat fresh, and fine for making jam and to dry like prunes and used like prunes.

Plant near a plum for pollenizing, which will make them produce heavier crops of fruit.

ROSA MULTIFLORA LIVING ROSE FENCE

Rosa Multiflora is an excellent, tight hedge fence for large areas, but is not suitable for small lawns. With its thick, intertwining branches and innumerable thorns, it develops in a few years into an erect, 8 ft., stock-proof hedge. It holds down fence line weeds, it does not rob the soil around it, nor does it spread like the old Osage Orange. Wonderful for bird sanctuaries, a splendid snow fence, and ideal for erosion control; Rosa Multiflora has been strongly recommended by the State Conservation Board. In early June the plants are profusely covered with lovely white single roses; the leaves come early in the spring and stay on until late fall. It requires no clipping, no training, no supports. Plant 1 foot apart.

	Per 100		Per 100
6 to 12 Inches	\$ 3.00	18 to 24 Inches	\$10.00
12 to 18 Inches	6.00	24 to 30 Inches	15.00
